

منظمة مساءلة لحقوق الإنسان
Musaala Organization For Human Rights

Musaala Organization for Human Rights: is a Yemeni NGO based in Marib Governorate, working in defending and protecting human rights through monitoring and documenting human rights violations, supporting and redressing their victims, and holding accountable those responsible for these violations in order to stop these violations and ensure that they are not repeated.

Our Goals:

- 1- To protect human rights in Yemen by monitoring and documenting violations of human rights, exposing them, supporting and redressing their victims, and holding accountable those responsible for stopping these violations and ensuring that they are not repeated.
- 2- To create a local and international public opinion on the victims of human rights violations in Yemen, highlighting them through the use of various tools and techniques of lobbying and advocacy.
- 3- Building the capacity of society in general and human rights workers in Yemen in particular on the concepts and laws of human rights and defense mechanisms, through the establishment of periodic training courses and programs that contribute to creating a professional environment in our local communities.
- 4- Raising awareness of human rights through various awareness tools and modern educational tools.

- 5- Coordination and networking with local and international organizations and relevant institutions, through working within local, regional and international alliances to contribute in the promotion and protection of human rights in Yemen and the world.

Our Areas of Work :

Musaala for Human Rights works in the field of defending and protecting human rights through four different fields, as following:

- **Monitoring and Documentation:** Through a qualified team working in the field to monitor and document all human rights violations through interviews with victims, hearing eyewitness testimonies, gathering evidence in term of using these information in statements or reports.
- **Lobbying and Advocacy:** Through participation in advocacy campaigns on human rights violations and its victims to put pressure on all responsible parties of these violations, with an aim to support and stand with the victims, and to hold those responsible accountable using modern tools and techniques of lobbying and advocacy.
- **Training Capacity Building:** Through different training and capacity building programs for the society in general and human rights workers in particular on various human rights issues in order to enable them to work in a professional and effective human rights environment in our local communities.
- **Raising Awareness and Education:** Raising awareness of human rights issues through various awareness tools and modern educational tools.
